DESCRIPTION AUSTIN WALL SCONCE

The way to create new lights with a classic look it to take the best of what you have a rework it. The Austin wall sconce is closely based on our Avalon and Ashland warehouse shades with a more conventional wall mount. The smaller shade diameter allows for mounting in tighter spaces whilst the minimally intrusive goosenecks keeps walls and doorways alight without intruding too far into the space. If you like the Austin Wall Sconce you may also like the Eclipse Wall Sconce – same sconce different shade.
